

Precise and dynamic: the new Cayenne GTS models

24/07/2026 Precise and dynamic: the new Cayenne GTS models

- **Specialising in on-road performance**
  Designed specifically for on-road and track performance, the new Cayenne GTS models are the most dynamic derivatives of the model series.
- **Upgraded chassis**
  The new Cayenne GTS models feature adaptive air suspension as standard, including Porsche Active Suspension Management (PASM) and Porsche Torque Vectoring Plus (PTV Plus). All the chassis components have been optimised specifically for the GTS.
- **Powerful V8 engine**
  The new Cayenne GTS models are powered by a comprehensively upgraded and more powerful twin-turbo V8 engine producing 368 kW (500 PS) (**Cayenne GTS (WLTP)*:** Fuel consumption combined: 12.7 – 12.1 l/100 km; CO_2 emissions combined: 289 – 277 g/km; CO_2 class: G, **Cayenne GTS Coupé (WLTP)*:** Fuel consumption combined: 12.7 – 12.1 l/100 km; CO_2 emissions

combined: 290 – 277 g/km; CO_2 class: G) – made in Zuffenhausen.

- **Upgraded GTS design**
  Porsche has refined the design DNA of the GTS models. Many of the exterior trim elements that were previously body-coloured are now finished in High-Gloss Black.
- **Extended standard equipment**
  The standard equipment of the new Cayenne GTS models has been extended. Porsche has extensively upholstered the interior in the high-quality Race-Tex material.
- **Consistently high performance**
  The Porsche Cayenne GTS Coupé can be equipped with lightweight packages and an exclusive sports exhaust system. These packages enable a weight saving of up to 25 kilograms.
